IVETA Member Benefits

The following services and products are provided by IVETA to promote its overall mission, for the low cost of USD \$50.00 per year for individual membership. Organizations may join for USD \$300.00 and students are also invited to join IVETA.

Regional and International Conferences

IVETA's conferences and meetings provide opportunities for you to meet and collaborate with your global colleagues. You will be able to share information and experiences for improving and advancing vocational education and training right across the globe. There may be one or more regional conferences per year. These are in addition to the IVETA Annual Meeting and Conference held in the USA each year.

TVET Innovation and Improvement Fund (TIIF)

Previously the Professional Microgrant Program, the IVETA TIIF was started in 2002 to assist developing countries to experiment, adapt, and develop new approaches in VET. The results are disseminated to the international VET Community. The program is financed from grants provided by Members and from IVETA dues.

Membership Directory

IVETA's membership directory including contact and other pertinent information about each IVETA member is available to all members electronically. It provides quick and easy contact with a wide variety of colleagues in vocational education and training across the globe to facilitate sharing of information on TVET.

Web Site

IVETA maintains a web site with public and member access areas. The public web site includes general information about IVETA, and upcoming events and the Hot Line. Special "Member only" services include the IVETA Journal, Electronic Forum, Archives, Membership Directory, and more.

Journal

The IVETA Journal has been published on a semi-annual basis since 1993. It is a reviewed journal. The largest department of the Journal is devoted to empirical research articles. The Journal is distributed to all members in electronic form, via the Members Web Site.

Electronic Hot Line

IVETA issues a quarterly electronic Hot Line to all members. The Hot Line includes brief alerts on TVET initiatives worldwide and IVETA organizational happenings. It also contains related links where more detailed information can be found (including but not limited to the IVETA web site, conferences, and Journal).
